

Operational Performance

First Milling Company is engaged in producing, packaging, and selling flour products and wheat byproducts, such as animal feed, bran, and wheat germ. The Company has a unique market position due to its effective role in supporting the Kingdom's Vision 2030 and bolstering food security. This is supported by strategically located, modern, innovative, and efficient production plants in four regions. These regions are Makkah Region (Jeddah Governorate), Al-Qassim Region (Buraidah City),

Tabuk Region (Tabuk City), and Eastern Province (Al-Hasa Governorate). As the sole local player with production facilities spread across four regions of the Kingdom, First Milling Company has a significant competitive advantage and quickens the pace of its operations.
